GENERAL AND REVENUE SECRETARIAT,

Bangalore, 4th April, 1941.

no. 1317/PRC

To

The Secretary to the Government of
His Highness the Maharaja of Mysore,
Law Department,
Bangalore.

Sir,

In continuation of the Chairman's letter No.1314/PRC. dated 3rd April, 1941, forwarding the Report of the Committe I am directed to submit the following for the information of Government:- (1) the Note prepared by the Sub-Division Officer, Bangalore, regarding the site at Peenya (referred in paragraph 59 of Chapter XI of the Report, (2) written opinions received from the public on the Memorandum issued by the Committee, and (3) minutes of evidence taken before the Committee.

I have the honour to be,
Sir,
Your most obedient servant,

K Ramakrishnaiya
Secretary,
Prison Reforms Committee.

Note. B/19.2.1941 from the S.D.O. Bangalore re. the Plot-wise details of Gomal S.No. 57, 47, 48 & 49 of Peenya Village, Bangalore North Taluk. 2½ miles North of the Bangalore-Tumkur Road (6th & 7th Mile Stones) for location of a Borstal School proposed by the Government.

Subject:- Acquisition of lands in Peenya village for locating a Borstal School;-

Extent and location of land:- Peenya village has got a population of 829 of which about 71 families are of Adikarnatakas with 284 people. The Adikarnataka houses are located in Survey No. 40 to the north of the Bangalore Tumkur Road. Survey numbers 57,47,48 and 49 form a compact block measuring A. G. 70 -21 as per marginal details. These numbers are gomal lands meant for grazing purposes to the village cattle which number 672.

	A.	G.
Survey No. 57	17	5
" 47	28	6
" 48	6	24
" 49	18	26
Total.	70	-21

These lands were previously assigned for the Butt fire for the use of the students of the Police training school. On receipt of a reply from the Inspector General of Police that the lands are not now used for the above pruposes, darkhasts were entertained for their disposal fc dry cultivation.

The block comprising survey numbers 57,47,48, and 49 is bounded on the south by Bangalore-Tumkur Road, on the east by lands under cultivation and Peenya, Forest plantation, on the north by the manga tope belonging to Mr. Madhava Iyengar and on the west by lands under cultivation and Adikarnataka houses constructed in survey no.46

2. Nature of the land:- Except on the border of the plantation, to the east and north of the above block, the major portion of these survey numbers is very much cut up with a number of scours all over. The mounds originally used as firing Range still exist. There are three gokattes, which are almost abandoned in survey numbers 57,47 and 49. There are no better than small pits which could impound water, only during rainy season. In parts

parts of survey numbers 47 and 48, the soil consisting of crude kaolin is being excavated by the authorities of the Standard Tile and Clay works, Yesavanthpur, for the manufacture of fire bricks. At present the land is not fit for any cultivation unless scours and the excavations are filled up and earthern mounds of the outt fire -- levelled up.

Though the plot comprising of these 4 survey numbers is classed as grazing ground, no grass is grown thereon and the land is not used as a pasture ground. The villagers have not attempted to improve the grazing facilities. By utilising this land for other purposes, the village cattle will not be put to any inconvenience. In parts of the low lying areas of survey number 57, if any small pits are reserved for impounding rain water, it is possible to use the same for garden purposes. Wells may also be tried.

3. Other advantages of the locality:- The above plot is close to Peenya village which has got a population of 829. The adikarnatakas' strength of the village numbers 284. Nearly 250 of the Adikarnataka population are now employed on unskilled labour in many local -- industrial concerns.

2. The following industrial concerns are working in the neighbourhood, all within a radius of about 3 miles on the east:-

1. The Standared Tile and Clay works, Yesavanthpur.
2. The Sooryodaya Mills, Yesavanthpur, where piece goods are manufactured.
3. The Kaolin mines worked by the Stoneware pipes & Potteries Ltd., Yesvanthpur.
4. The Yesavanthpur soaps and Chemicals,Ltd., Yesavanthpur, This is a limited concern.
5. The granite Factory, Yesvanthapur run by a private individual.
6. The Mysore Glass & Enamel works, Yesavanthapur.
7. The Mysore lamp Works, Yesvanthpur.
8. The Indian Institute of Science.
9. The Government Porcelain Factory.
10. The Mantle Factory.

11. Sree Mahalakshmi Mills, Yesvanthapur.
12. The Bangalore Carpets Manufacturing Coy, Yesvanthapur

There is also a proposal to shift the Government Soap Factory now located near the Technological Institute, Bangalore, to near the Railway line, Yesavanthapur. In all these industrial concerns, private labour is employed.

3. For providing Electric Lights to the locality, connection may be taken from the Electric Line running in easy distance.

4. The main pipe-line from Hessarghatta to Bangalore run between survey numbers 48 and 49 of the above plot from which tap connection may be taken to provide drinking water.

There is a primary school, now located in the village Panchayet Hall of Peenya to the south of the Bangalore - Tumkur Road.

Regarding Providing Lands to Adikarnatakas:- In case survey numbers 57, 47, 48 and 49, which are now - darkhasted for by the Adikarnatakas for dry cultivation are utilised for a Borstal School, the Adikarnataka applicants may be provided plots for cultivation in the other gomal lands situated to the South of Bangalore-Tumkur Road, consisting of survey numbers 58, and 82 which are equally close to the village and about 40 acres out of these survey numbers may be thrown open for cultivation.
